TIPS TO REDUCE WAIT TIME

🔹 Call early in the morning between 8 AM and 9 AM EST when call volumes are typically lower, as many customers wait until later in the day to reach out. This window gives you a better chance of getting through quickly and resolving your issue before your next attempted purchase.

✦ Have your card in hand before you dial so you can provide the number without delay. Also, write down any error messages you saw on the merchant's screen, as this information helps the agent diagnose the problem faster without running unnecessary checks.

★ Use the automated system to your advantage by saying "declined transaction" or "account block" when it asks for the reason of your call. These keywords route you directly to the right department instead of sending you through general customer service loops.

🔹 If you are using a mobile phone, ensure you have a stable signal or Wi-Fi connection before calling, as dropped calls force you to start the verification process all over again. A clear connection also ensures you hear the agent's instructions without constantly asking them to repeat themselves.
